Ignite Challenges

Sachin Sa... >

Challenge Overview

Mission

Create an agentic workflow that:

- Transforms campaign context into a responsive, **SEO-first**, brand-compliant landing page.
- Justifies every design choice with **data-driven reasoning**.
- Deploys live to **Vercel** or **Azure** and exports **modular components** for **Sitecore BYOC**.

Core Capabilities

Area	What Your System Must Do
Data-Driven Generation	Ingest past campaign results, A/B learnings, and marketer wireframes.
Section-by-Section Control	Accept targeted prompts to refine only the hero, pricing, FAQ, etc.
Auto Form Builder	Generate forms with API-ready endpoints.
Template Library	Output reusable JSON / schematic templates for future pages.
Explainability	Produce a PDF mapping each design/content choice to data insights.
Deployment	One-click publish (Vercel or Azure) + BYOC-ready React components for Sitecore.

Deliverables

- GitHub repo (full source & docs)
- Live URL (Vercel or Azure)
- 5-min demo video
- AI-generated rationale PDF

- Input template JSON for rapid reuse

“Please include any external links to components (e.g., GitHub repositories) within your Pitch Deck or Summary Document.”

Competition Details

Section	Description
Component Architecture & Sitecore Compatibility	Modular React/Web components, BYOC-compatible, drag-and-drop ready.
Input Parameters & Form Structure	Capture campaign inputs, SEO settings, assets, CTAs, wireframes.
Campaign Historic Data Access	Integrate traffic, engagement, and conversions to inform generation.
Experimentation Results Access	Use past A/B tests to guide AI choices.
Resources Provided	DIFC brand guidelines, wireframes, datasets, deployment credentials.
Evaluation Criteria	Judged on alignment, reasoning, technical quality, brand adherence, innovation, presentation.
Submission Package	GitHub repo, deployed page, explanation PDF, demo video, data usage summary.
Timeline	10 May 2025 – 10 Aug 2025; winners announced 25 Aug 2025.
Prizes & Awards	\$10,000 for 1st Place; certificates and 3D badges for runner-ups.
Questions?	Support via competition forum and email.

Input Parameters & Form Structure

Input Parameter	Purpose / Notes
Campaign Objective	Lead gen, sales, signup—sets page focus.

Input Parameter	Purpose / Notes
Primary Conversion KP I	Success metric (e.g., 5% sign-ups).
Target Audience Description	Role, industry, pain points.
Buyer-Persona Keywords	Short targeting phrases.
Product / Service Name	Clear campaign offer.
Primary Offer	What the visitor gets (trial, discount).
Unique Value Proposition (UVP)	Differentiator vs competitors.
Top 3–5 Benefits	Main outcomes/value.
Feature List	Bullet-pointed functions.
Emotional Triggers	Trust, urgency, exclusivity.
Objections to Overcome	Doubts to counter.
Testimonials	Quotes + attribution.
Trust Indicators	Badges, logos, certifications.
Primary CTA Text	Exact main button copy.
Secondary CTA Text	Backup call-to-action.
Form Fields & API Config	Input fields + endpoint.
Hero & Secondary Images	Visual assets.
Video URL (optional)	Promo/demo video.
Tone of Voice	Formal, friendly, playful.
Brand Color Palette	Hex codes.
Font Style Guide	Brand fonts.
Logo Upload	Campaign logo.
Page Layout Preference	Scroll, modular, storytelling.

Input Parameter	Purpose / Notes
Target SEO Keywords	Optimization guide.
Event Tracking Setup	Actions to track.
Analytics IDs	GA / GTM IDs.
Privacy Policy URL	Compliance.
GDPR/CCPA Consent Text	Legal opt-in copy.

Campaign Historic Data Access

Input Parameter	Description
Date	Day, week, or month for trend tracking.
Campaign Name	Official campaign name.
Campaign ID	Unique ad platform identifier.
Landing Page URL / ID	System ID or URL.
Traffic Source / Channel	Origin (Google Ads, Meta, etc.).
UTM Source/Medium	UTM tracking params.
Device Type	Desktop, Mobile, Tablet.
Creative ID / Name	Asset identifiers.
Creative Type	Image, Video, Text Ad, etc.
Sessions / Users / New Users	Visitor stats.
Bounce / Engagement Rate	Interaction quality.
Avg. Time on Page	Time spent.
Scroll Depth	% of scroll reached.
CTA Clicks	Main CTA clicks.
Form Views / Starters / Completions	Form interaction funnel.

Input Parameter	Description
Conversion Count/Rate	Lead or purchase metrics.
Cost per Session/Conversion	Efficiency metrics.
CAC	Customer acquisition cost.
Funnel Rates	Lead-to-SQL, SQL-to-Opportunity, etc.

Challenge Rules

Resources Provided

- Official DIFC Brand Guidelines**
Comprehensive standards for colours, fonts, logo usage, and tone of voice.
[View here](#)
- Image Dataset CSV Sample**
Curated image metadata to help the AI choose or suggest visuals for each landing-page section.

[Sample Campaign Dataset](#)

[Sample Experiment Dataset](#)

- Reference Wireframe Layouts** — Example low-fidelity wireframes illustrating best-practice layout, section order, and content hierarchy (participants may also submit their own).

Evaluation Criteria

Criterion	Weight	Description
Conversion Strategy & Goal Alignment	20%	Alignment of layout, messaging, and CTAs with campaign objectives and conversion KPIs.
Model Reasoning & Decision-Making	20%	Accuracy and logic of the AI when interpreting inputs, choosing layouts, and structuring content.

Criterion	Weight	Description
Technical Quality (Code, SEO, UX)	15%	Clean code, accessibility, SEO optimization, mobile responsiveness, and load performance.
Design Aesthetics & Brand Compliance	10%	Visual appeal, modern design, and adherence to brand guidelines (colors, fonts, tone).
Explanation Clarity & Transparency	10%	Completeness and quality of the auto-generated PDF explaining each design decision.
Analytics & Testing Strategy	10%	Strength of proposed KPIs, event-tracking setup, and A/B or multivariate testing plan.
Innovation & Advanced Techniques	10%	Novel methods that enhance performance, structure, flexibility, or usability (e.g., section-specific prompting, dynamic form integrations).
Demo Video Clarity & Professionalism	5%	How clearly and professionally the demo video showcases functionality, flow, and key features.

Submission Package

Please include all of the following items:

Deliverable	What It Must Contain
GitHub Repository	Full source (frontend, backend, configs, docs).
5-Minute Demo Video	Clear walkthrough of input flow, generation process, section-specific prompting, and Vercel deployment.
Deployed Landing-Page Link	Live, fully functional page hosted on Vercel, Azure App Service, Azure Static Web Apps, or Azure Container Apps.

Deliverable	What It Must Contain
Auto-Generated Explanation PDF	Detailed rationale for every major design and layout decision—generated by the AI agent.
Data Usage Summary	Which historic campaign fields & experiment results were used, how they mapped to page elements, and any assumptions made.
Input Form Template (JSON)	Reusable template for rapid future landing-page generation.

Prizes & Awards

Place	Reward
1st Place	\$10,000 cash prize + Winner’s Certificate + 3D Winner Badge
2nd Place	Runner-Up Certificate + 3D Runner-Up Badge
3rd Place	Honourable-Mention Certificate + 3D Honourable Badge

“Note: Only the 1st-place winner receives a monetary award. All top-ranked participants receive certificates and special 3D digital badges recognizing their achievement.”
